EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Phillip Miller on 15 May 2008.

2. The application has been amended as follows:

Please cancel claim 5.

Allowable Subject Matter

3. Claims 1-4, 6-23 and 25 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is the inclusion of the limitation "wherein said first and second hands-off tests comprise a sampling of the input parameter signal, a duration of said sampling in said first hands-off test being greater than a duration of said

sampling in said second hands-off test" in combination with the rest of the claimed limitations, which is not found singularly or in combination within the prior art.

The closest prior art references (Casebolt and Engle) disclose of having a hands-off testing and sampling an input signal to detect a hand-off condition, however, the reference fail to teach that the sampling duration when the cursor is in motion is greater than the sampling duration when a cursor is not in motion. The reference teach that when the cursor is in motion that the sampling is faster than the sampling when the cursor is not in motion, which is opposite to the claimed limitation that requires the sampling to be slower when the cursor is in motion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
